Mr. and Mrs. E. M. Holman, prominent people of Worcester, Mass., after having spent about two months at Enterprise, arrived in Titusville Monday to stay a few weeks, having visited this section for several years past every winter season.

Professor Charles Oldrieve gave a very interesting exhibition of that novel and highly entertaining performance known as water walking, on the river in front of the Indian River hotel Monday afternoon, which was enjoyed by the people of this city. Also numerous water bombs were exploded much to the pleasure of the little folks. Professor Oldrieve left that afternoon for Rockledge, where he gave an exhibition Tuesday.

Mr. Claddie Stewart came from Bonaventure Tuesday with the new 23-foot launch recently built for Dr. A. A. Stewart and Oscar Stewart by the East Coast Marine Railway company, at Eau Gallie. This boat is about six feet beam and is equipped with a Booth four cycle motor and makes about eight miles per hour. The boat will be used as a runabout between this place and the Stewart grove, at Bonaventure by Mr. C. R. Stewart.

Before leaving for the north this week Mr. W. H. McFarland informed a STAR reporter that he had interested a syndicate in buying the land property for the purpose of building a resort hotel thereon. It is well known that a resort hotel in Titusville would draw many people to this place whereas the accommodations now are not sufficient to meet the demand. We hope that the project will materialize so that it will be prepared for next season's business.

SUGGESTED FISH LAWS.

Editor of The Florida Star.

I would like to offer the following amendments to the article over the signature of "Fisherman" in THE STAR last week:

A law prohibiting the catching of mullet entirely from the 15th of November to the first of January, making it a penalty of ten dollars fine each on the dealer and the express company for each barrel of mullet shipped in that period.

Stop the use of seines and drag nets by making it a penalty of \$500, one-half to go to the informer.

There should be a fine of \$25 imposed on all parties caught within the two-mile limit of an inlet with either a cast net or a gill net on a boat.

A BOUQUET FOR DAVIS.

From the Washington Post.

A veteran southern Democrat, who has done his state faithful service, retires to private life at the close of this session in the person of Representative Robert W. Davis, of Florida. Small as the Florida delegation is, it has been one of the most industrious from the south in doing things for Florida people. Since Mr. Davis entered congress eight years ago Florida's two senators and two members have secured many hundreds of thousands of dollars for river and harbor improvements, a number of good public buildings and have collected from the government over \$1,000,000 for an old Florida Indian war claim.

As one of the hardest workers in congress, Mr. Davis contributed his share toward the well-known successes of his delegation. He has spoken seldom, but always to the point and never for buncombe. The retiring Florida member has made no enemies during his four terms and his friends are many on both sides of the center aisle. He is one of the few men in the house whose return to private life will be a loss to the careful and business-like consideration of legislation.

Parties desiring to visit the island will remember that it is necessary to obtain a permit from the warden, P. Kroeger, at Sebastian, to land.

WONDERFUL SPANIEL.

Mr. M. M. Williams, of this place, has a very fine thoroughbred fields water spaniel (imported) that is truly a wonder in his way. He can do almost anything except talk, and is able to find a lost article on being sent for it, by his acute sense of smell.

An illustration was given a member of THE STAR staff, who witnessed an exhibition of his acuteness in this direction Monday. Mr. Williams took from his vest pocket a good sized roll of bills and going away from his dog a distance of about one hundred and fifty yards, hid his money and returned. Upon being told to bring it back the spaniel went straight and returned immediately to his master with the lost greenbacks intact, not a single bill missing. This fine specimen of canine intelligence recently recovered a very valuable and highly prized gold hunting case watch for Mr. Isaac Jenkins, a very heavy grain buyer of Jacksonville.

A. Morgan. The first two jumped and received some severe bruises from striking a fence, but not serious, while Mr. Morgan stuck to the buggy and succeeded in stopping the runaways near Rice's garden. FIRE AT HERMITAGE GROVE.

A forest fire came near destroying the Kenyon cottage Tuesday. The old Morrow house, the packing house and a small building containing orange boxes, paper, fertilizer were destroyed. The fire came from the west with a 20-mile breeze behind it, made fierce by the fact that portions of the prairie were very rough, probably had not been burned off in ten years. The flames came within ten feet of the dwelling. It was only by the heroic work of Mr. and Mrs. O. J. Deltre, who occupy the place, that the dwelling was saved. Back fires saved the place, for the prairie grass would be carried 200 yards in great bunches and lodge on the roofs, and it was impossible to attend to several buildings at once. Mr. Deltre returns thanks to Messrs. Bond, and Chap Osban and Mr. Shivers for their assistance. Loss cannot be estimated at this early date. Mr. Deltre has been unfortunate this winter in losing his orange crop by the cold and now at most losing all he had by fire.

Next comes the Poles Plastic, one of most beautiful sights the human eye ever witnessed will appear at Titusville grand free street fair, 7th to 11th.

RESULTS OF ADVERTISING.

The Bridgeport Motor company, makers of the motor that is popularly known as "the motor that makes," have been regular advertisers in THE FLORIDA STAR for the past year and are reaping some grand results of this advertising all along the east coast. They have lately received orders from Messrs. E. R. Risor & Sons, of Jensen, for ten 3 1/2 h. p. Bridgeport motors, also Mr. Paul Kneegel, of the Sebastian Boat Yard, has lately ordered a 4 h. p. Bridgeport, and Mr. F. W. Yates, of Hobe Sound, has ordered a 3 1/2 h. p. Bridgeport. Mr. Geo. Jessup, of Tarpon Springs, has lately received an 18-hp launch built by the Bridgeport Motor Co. and equipped with one of their 2 1/2 h. p. Bridgeport motors. It is needless for us to add that the Bridgeport people are more than pleased with their orders received from Florida and have renewed their advertising contract with THE STAR for another year.
